ASQUITH'S VIEWS.

London, October 27. Mr. Asquith received an enthusiastic welcome at a crowded Laboral meeting at Peterborough. He said Labour's manifesto was trank and open. It spoke in some matters almost in the same voice as the Independent Liberale, but the ultimate purpose of the Labour Party was state control of industry. Mr. Bonar Law's policy where not negative was gelatinous. The action of the Coalition itself had shown that the Independent Libersla had been right. The great need of the country was peace and retrenchment,

THE TWENTIETH SUNDAY AFTER TRINITY.

Jeremy Taylor once said "The (rue Christian does not sit down on his little bundle of thorns." St. Paul is constantly preaching thankfulness to his converts, telling them in spite of all their difficulties, in spite of the evil round them, if they will but yield themselves up to the will of God, allowing themselves to be inebriated with the Holy Ghost their hearts will base full of joy that they cannot contain it and it will spill over in songs of praise and thanksgiving. ## PROSPECTUS.

This Company has been formed principally to promote the use of reinforced concrete in Luilding and engineering work generally. This form ...of building material is greatly-in-favour-in-Europe-and-America for its cheapness and the saving in time in orection. It should be especially in demand in tropical places owing to its great resistance to the deleterious influence of the clim its and to the attacks of insects such as white-ants, etc. It seems therefore an ideal material for Hongkong as a substitut; for the expensive and often inferior materials at present in use. Houses are particularly scarce in Hongkong at the present time and there should be no lack of work for a Company such as this. The Company has already large contracts in view both for fresh work and work in process of construction which it hopes to scoure. The Company is empowered by its Memorardum of Association to do all kinds of engineering, building and architectural work and for the objects it has in view a large capital will eventually be required.

The Company has a quired as a going concern as from the 13th day cf Soptember, 1922 the business of Louis Guin, of St. George's Buildings, Victoria, Hongkong Architect, Civil Engineer, Consulting and Structural Engineer and Reinforced Concrete Expert, the purchase price for which will be paid and satisfied by the allotment to him of Five hundred shares of the Company credited as fully paid up. Of these Four hundred and fifty shares are for the goodwill of the said business. The contract-for the acquisition of this business is dated the 21st day of October, 1932, and made between the said Louis Gain of the one part and Walter John Hawker as Trustee for the Company of the other part. A copy of this contract can be inspected at the office of the Solicitors to the Company at any time during business hours.

The Company has ontered into contracts to scoure the astrices of experts in reinforced concrete work.

- (b). The minimum subscription on which the Directors may proceed to allotment is seven shares.
- The shares now offered-for subscription have been underwritten by the Directors and Sir Catchick Paul Chate; Knt. C.M.G., and Mr. James Harpor Paggait for a commission at the rate of Two per cent. on the amount thereof in proportion to the shares taken by them for which they have subscribed the Memorandum of Association and such commission is payable by the Company.
- No other commission or promotion money will be paid by the Company. The Company is to pay the preliminary expenses of and incident to the formation and flusting of the Company down to the time when it becomes entitled to commence business and the estimated amount thereof is
- The Articles of Association provide that the qualification of a Director is to bathe holding of 1,000 shares in the Company and that the remuneration of each of the Directors is to be \$1,000 per annum.

## EMPIRE AIR SERVICE.

FLIGHT TO AUSTRALIA NEXT YEAR.

"Australia should go into the airship scheme and take the sporting probability of success," said Mr. Hughes, the Commonwealth Prime Minister, referring to cables from London accusing him of apathy towards the Empire airship scheme. "It is in that light that I chall put it before Parliament. It is well worth trying: Australia has much to gain Tokye. ... by improving the service with the Old World, Latrongly believe the nirship service is a practical proposition, and I Leartily favour it. Parliament bowaver, thought the time unripe, and there the matter stands." Sir Keith Smith, who arrived in Sydney on his way to London via China and Japan, announces that a large British airship will probably visit Australia next year, and by 1925 there will be a weekly service between London and Sydney, the journey occupying 12 days. Sir Keith Smith explains that a private company was being formed, in which the participating Governments would be represented, with four millions capital—a million in Ordinary shares and three mil

lions in Debentures. . He added that the British Government was placing unless reedly at the disposal of the new company, all airships, with materials and bases, now under the Government's control, also t free supply of wireless and meteorological arrvices.
